Specifications apply under the following conditions: Data without tolerance limits is not binding.

In line with the Bluetooth® Core Specification, bit rates are specified in Mbps (million bits per second).

Mbps is not an SI unit.

The specifications for the R&S®CBT/R&S®CBT32 refer to a fully equipped unit with all applicable options installed.

General data

Operating temperature range	+5 °C to +45 °C, in line with EN 60068-2-1 and -2
Storage temperature range	-25 °C to +60 °C, in line with EN 60068-2-1 and -2
Humidity	+40 °C, noncondensing 80 % relative humidity, in line with EN 60068-2-78

Electromagnetic compatibility	in line with EMC Directive 89/336/EEC, applied standard: EN 61326 (immunity for industrial environment; class A emissions)
--------------------------------------	---

Note:

The instrument complies with the emission requirements stipulated by EN 55011 class A. This means that the instrument is suitable for use in industrial environments. In line with EN 61000-6-4, operation in residential, commercial and business areas or in small-size companies is not covered.

Thus, the instrument may not be operated in residential, commercial and business areas or in small-size companies, unless additional measures are taken to ensure that EN 61000-6-3 is complied with.
